John Power	21	760		After Standerton (maybe in brackets mention temperate Highveld? - emphasising difference to rest of Tvl.	✓
John Power	21	768		1980s, African..	✓
John Power	21	770		predators rather than mesopredators	mesopredators as per peer review comments
John Power	22	773-775		This is not altogether true - Tvl mention Problem animal control from 1968 - 1978 in all their annual reports. Though I guess these are not easy to get. eg. From 1953 - 1966, 19, 365 jackals killed in Tvl by hunt clubs (see Bigalke, R. 1968. Nature Conservation in the Transvaal. Director of Nature Conservation, Pretoria). I have these Tvl Ann reports if someone wants to come and glean info a bit - if that necessary..	Will reference Bigalke. Good to have knowledge of additional source
John Power	22	778		Beinart 1998 ref after 27 %	✓
John Power	22	787 - 788		That reference has an initial in it. W. & H. Further is this the right reference for the diet of a cape fox anyway?	there are two Davies-Mosterts involved and need to be identified
John Power	22	790		Can use the Bigalke reference above here.	✓
John Power	22	790-791		The history of it can be gleaned from the Tvl annual reports - maybe not extensively explored. The ecology of the jackal has been studied in a thesis even, and the title leaves no illusions as to what was NB (see Ferguson, J.W. H. 1980. Die ekologie van die rooijakkals <i>Canis mesomelas</i> Schreber, 1778 met spesiale verwysing na bewegings en sosiale organisasie. MSc thesis, University of Pretoria, Pretoria) - this was done at SA Lombard, and 2 scientific articles were outputs of this in 1980s	✓
John Power	21	741		Going back a bit - what is of interest is that Vrolijkheid even sent caracals to the Kzn drakensberg, thought to be an introduction, as they were said to be prior to this - see Barnes, B. 1991. Giants Castle: a personal history. Bill Barnes (privately published), Pietermaritzburg.	✓
John Power	22	798		Wool Growers - 2 words	✓
John Power	22	806		after agriculture, comma/ or even semi-colon?	✓
John Power	22	808		In 1995, the..	comma not required
John Power	23	816		Ordinance No ...	✓
John Power	23	821		Brackets not needed - its all text..	✓
John Power	23	826		monofluoroacetate	✓
John Power	23	837		In fact in direct conflict with the Animal Protection Act - 1962 etc.	✓
John Power	24	848		(DEAT)	✓
John Power	24	850		Remove The. Just say DEAT	✓
John Power	24	856		online?	✓
John Power	24	882		is so, whether..	✓
John Power	24	894 - 895		Is this really true ? There is surely a lot of research on caracal and jackals ..what is few actually...caracals have been studied in at least 4 areas, jackal a bit more..but is this really few in greater scheme of things?	changed. Will be raised in other chapters.
John Power	27	950		delete a Provincial competency?	would prefer to remain for clarify
John Power	27	956		ended 1957 - doesn't need saying here, will be send in the timeline further down..	✓
John Power	27	966		delete 1924?	✓
John Power	27	983		Spelling - Vrolijkheid I think?	✓
John Power	28	984		S. A. Lombard Nature Reserve - can replace Panfontein I guess as it was proclaimed with this name	✓
John Power	28	983 - 985		These must be in their own years on timeline..not under 1950s. SALombard = 1954	✓
John Power	28	993		1972 only?	✓
John Power	29	1030		Guess can add conception of PredSA? And maybe start of programmes with NGOs to add livestock conflict, ie. EWT, De Wildt etc just years when they initiated programmes - not when they started that is..optional ofcourse	PredSA editors can decide on this
John Power	30	1034	2.1	Interesting info, can this not be re-typed into Table for better clarity ?	Tables need to be professionally redrawn by PredSa leaders
John Power	31	1040	2.2	same as above?	see above
Quinette Kruger	1	29		overtime should be two words - over time	✓
Quinette Kruger	3	83-86		It is very difficult to make sense of this sentence. Should it perhaps be: "...commercial farmers, and are now required..."? I would suggest breaking the sentence up into two sentences.	✓
Quinette Kruger	4	137		move the comma so that the sentence reads "...and feral dogs in other areas, taking livestock..."	✓
Quinette Kruger	4	138		insert comma after parenthesis: "...donkeys, goats, this happens..."	✓
Quinette Kruger	5	172-173		The preceding sentences refer to people who did not keep livestock. Therefore, this last sentence should be moved to the next section where the keeping of livestock by farming communities is discussed.	✓

Quinette Kruger	13	473		The word "being" appears twice - before and after "increasingly". Remove one of them.	√
Quinette Kruger	14	491-492		Remove the word "poor", so that the last part of the sentence reads: "...but also in alleviating white poverty."	√
Quinette Kruger	18	653		Change to "From the onset of Union, vermin destruction..." ?	√
Quinette Kruger	19	672-673		Should be: "The number of woolled sheep..."	√
Quinette Kruger	19	674		should be: "...23.5 million in 1930..."	√
Quinette Kruger	19	675		Beinart, 1998: 195 should be Beinart 1998: 204	√
Quinette Kruger	24	848		Insert (DEAT) after "Department of Environmental Affairs and Tourism..."	√
Quinette Kruger	24	853		Replace "...NWGA, the RPO..." with "...NWGA and the RPO..."	√
